

Fast track service

We have many enquiries from people 'in a hurry' for cosmetic surgery for one reason or another. Maybe you have a special event such as a wedding coming up soon. Perhaps you are only in the UK for a month or two. Maybe you have a quiet few months coming up. Whatever the reason, you need treatment to fit in with your schedule.

In order to accommodate people's lifestyles, we offer a 'fast track' service. Firstly, it is important to realise that in order to comply with the General Medical Council guidelines, you must have a minimum of four week 'cooling off' period between consultation and surgery. **Four weeks is therefore the shortest time frame in which we can offer surgical treatment.** You will also need to factor in recovery time before you will be looking your best.

We are also often very busy and unable to offer routine consultation appointments for several weeks ahead. We are now pleased to be able to offer a 'fast track' service, which offers you the following benefits:

- A 'fast track' consultation appointment on a Wednesday or on a day which suits you – usually within a week of contacting us
- The offer of an appointment for surgery four weeks after the initial consultation wherever appropriate and possible
- We can arrange local accommodation in Bristol at the time of your surgery if required

If you are considering this approach, you should stop taking any aspirin-type medication **immediately**, including such drugs as ibuprofen and diclofenac. If you are prescribed aspirin-type medication, you may need to discuss this with your doctor. We are unable to provide surgery for anyone who has taken aspirin-type medication in the eight weeks before surgery, as it significantly increases the chances of haematoma formation. If you smoke you should also stop smoking **immediately** – the risks of wound infection and skin loss are increased ten-fold in people who smoke.

Although our fast track service will put you straight to the top of our waiting list, sometimes circumstances beyond our control will arise. However, you have our promise that you will receive your surgery in the shortest possible time frame.

The cost of the fast track service is £395 in addition to the surgical fees.
